Subject: Microsoft Settlement

To Whom It May Concern:

I feel that the Federal and State Governments should have never gotten involved in this case. There is no telling how many years they have set back free enterprise and initiative. Please get this case settled fairly. Do not believe all the sour grape sources that are anti Microsoft and want a free ride. I have used Microsoft products going back many years. I have found their product to be well integrated and thus easy to use between platforms. I can't stand to think what can become of this good company and their products if their adversaries have their way.

Sincerely,

Robert A. Vogt
